

Visitor Information

Responsible Visitors

Please keep our island beautiful and safe for everyone by picking up dog waste and disposing of responsibly, always keeping your dog in sight and under control, especially in farmed areas and near livestock, taking litter home when bins are full, and only using our beach cleaning station for marine litter .

Facilities

Public Toilets - Public toilets are situated next to the ferry slip and near the Walled Garden in Achamore Gardens.

Recycling - Please use our recycling facilities by the ferry slip and glass bottle bank behind Gigha Hotel.

Food & Drink - Ardminish Stores is fully stocked with fresh and frozen products, you can dine out at the Gigha Hotel or Boathouse Restaurant, or grab a takeaway from The Nook. A café is due to open at the Craft Units in Summer 2023. For more information on places to eat, attractions and accommodation: www.visitgigha.co.uk

Road Users

The roads on Gigha are narrow single-track roads with few passing places. Please drive slowly when passing through Ardminish village and when approaching corners. There is a car park at the ferry slip and at Achamore Gardens. Please avoid parking in front of farm gates, access points, residential homes, or locations that will damage our verges.

Camping & Motorhomes

Campsite

The **Isle of Gigha Camp & Motorhome Site** offers tent pitches and motorhome hook-ups, several of which have an electrical connection. The site also offers toilet and showering facilities, an outdoor undercover wash up area, and a chemical waste disposal point. Book online at www.visitgigha.co.uk

Responsible Camping

Location - Please do not camp in enclosed field of crops or farm animals, or near buildings, and please park considerately.

Waste - Please leave no trace, and ensure human waste is either buried or disposed of appropriately.

Litter - Please use general waste and recycling bins available on the island. If our bins are full, please take your litter away with you.

Lighting Fires

To protect our local surroundings, use a stove rather than light an open fire. If an open fire is necessary, keep it small and supervised. Never light a fire during prolonged dry periods, in woodlands, on peaty ground, or near to buildings. Please remove all traces of fire before you leave.
